Sir/Madam:

Greetings!

We are pleased to inform you that in coordination with the Provincial Disaster Risk Reduction Management Office (PDRRMO), a “Coastal Clean-Up” will be conducted on July 29, 2023, Saturday, to start at approximately 7:00 o’clock in the morning. This is in connection to the celebration of “National Disaster Resilience Month”. A short program shall be held at the Provincial Capitol Ground prior to the actual clean-up.

In view hereof, may we request you together with your colleagues to cooperate and join with us to collect the thrown wastes and/or garbage in your respective areas of assignment which is attached to this letter-request. This is one way of promoting a clean and safer environment to the beaches of Dipolog and Dapitan Cities, respectively, as well as in the whole province of Zamboanga del Norte. The collected wastes shall be placed and/or deposited at the designated pick-up point for garbage/waste in your areas of assignment. In addition, you shall further submit your filled up Volunteer Trash Data and Coordinator Ocean Trash Data Forms to the designated person who are instructed to stay near the garbage pick-up point.

We shall be looking forward to your wholehearted cooperation in the name of community awareness on the status of our coastal environment.

Than you & God Bless!

Very truly yours,

FRITZJE CLAIRE V. TEJADA
 Administrative Officer V
 Officer In-Charge, PEMO

OCEAN TRASH DATA FORM

Ocean and waterway trash ranks as one of the most serious pollution problems choking our planet. Far more than an eyesore, a rising tide of marine debris threatens human health, wildlife, communities and economies around the world. The ocean faces many challenges, but trash should not be one of them. Ocean trash is entirely preventable, and data you collect are part of the solution. The International Coastal Cleanup is the world's largest volunteer effort on behalf of ocean and waterway health
